

At Bradford on Avon Food and Drink Festival we have decided to charge one price for both national and local producers. We took this decision because there are so many wonderful small producers all over the country and we wanted to bring them in and combine with all the delicious stalls from the south west.

No one loses out. We choose stall holders because of their product, not because of their geographical location. What something tastes like and how it's made is just as important to us.

However, if the produce is available nationally in a supermarket, major store, or wholesale then stall space will only be considered as part of a sponsorship package - details at the bottom.

Please read the important information below BEFORE applying:

There is a three stage procedure for all stall holder bookings, as below:

STAGE 1 – ENQUIRY

Please complete and submit a stall holder application form.

Samples, and additional information will be required if you are a new stall holder and not known to us.

STAGE 2 – ASSESSMENT

Assessment of your stall holder enquiry and a sample request if you are a new stall holder is required.

A sample tasting will take place. You will then be notified whether or not we can offer you a stall space.

The organisers' decision is final with regard to stall acceptance.

STAGE 3 – BOOKING

Once you have been accepted we will invoice you for payment within 14 days of receipt. You will need to BACS transfer it.

We will confirm receipt of the payment.

We will be in touch before the event with your set up instructions.

Your booking is NOT complete until you have sent us all required documentation and paid for your stall.

Information:

The standard pitch size is 3m x 3m and only stall space is provided.

All stallholders need to provide their own gazebo, tables and equipment etc.

The Festival DOES NOT provide hand wash facilities, refrigeration, gas supply or electricity cabling/connectors – you will need to provide your own and ensure that they are in good working order, with any relevant inspection/certification documents up to date and to hand at the event.

Electricity is provided and must to be booked in advance by our own suppliers. The use of your own generators is NOT permitted and any exhibitor found using one will be asked to stop, and will then be charged for an electrical supply.

Sponsorship

Producers who have produce available nationally can only have stall space as part of a sponsorship package, however smaller food producers are also welcome to take one of these packages to enjoy the extras that are provided.

We have Food Producer AND Non-Food Sponsorship packages available. Please email lotte@lotteduncan.com for more information.
